KubikDesign va prezinta paletarul RAL pentru MDF vopsit lucios sau mat

---

MDF VOPSIT : Fronturile din MDF sunt placi din fibre cu densitate medie , produse din rasinoase , care au o suprafata usor de prelucrat . MDF-ul se preteaza foarte bine la realizarea de fronturi de usi sau sertare .Datorita varietatii de culori si frezarilor disponibile , din aceste fronturi se pot face nenumarate combinatii pentru a da un aspect inovativ si unic mobilierului.
